

**PRODUCT: Methyl Ethyl Ketone (MEK)**

**Methyl Ethyl Ketone (MEK)** is a colorless, low viscosity liquid with a mild odor similar to that of acetone. It is completely miscible with many organic liquids, but miscible with water to only a limited extent.

**Application:**

By virtue of its high solvent power for numerous organic substances, cyclo-hexanone is used as a solvent in many branches of industry. Due to the high purity of the EL grade, it can be used in various electronic industry applications.

Items	Unit	Standards
Melting Point	°C	-86
Boiling Point	°C	80
Flash Point	(c-cup)	-9
Density @20 °C	-	0.8
Vapour Pressure@20 °C	kPa	10.5
Water Solubility@20 °C	g/100ml	29
Auto-ignition temperature	°C	505
