

PRODUCT: Polyisocyanates (L75)

Polyisocyanates are used mainly as hardeners for two-component systems. They are used in broad applications ranging from woodcraft and floor coatings to anticorrosion coatings for steel bridges and tanks, as well as coatings for automotive repairs and parts.

Items	Unit	Test method	Standards
NCO Content	Vt %	WS-QA-34-02	13 ± 0.5
Free TDI	Vt %	WS-QA-34-18	0.5 Max
Viscosity	GARDNER	WS-QA-34-03	X-Z
Color	HAZEN	WS-QA-34-04	G-1 Max
Volatiles content	Vt %	WS-QA-34-01	75 ± 1
